# CHOOSING THE RIGHT FENCE MADE EASY

When it comes to choosing a fence we understand that you want a fence that ticks all the boxes: **Good Looking**, **Easy to Maintain** and **Durable**. That's why at Metroll we manufacture a range of fence profiles made from COLORBOND® steel. Couple that with our exceptional engineering and local manufacture and you can't go wrong choosing the right fence.

## Why a Metroll Fence?

Don't be fooled, not all fences are created the same, so at Metroll we pride ourselves on ensuring we factor in all the important items that make our fencing the better choice.

### Quality Guaranteed

Manufactured using only 100% Australian made BlueScope COLORBOND® steel. Not all coloured steel fencing is made from COLORBOND® steel. It's easy to check; COLORBOND® steel fencing is branded with a laser engraving on either side of the fence at least three times on each 2.4m section.

### Warranty

Manufactured for compliance to all relevant Australian Standards and backed by a warranty of up to 10 years from BlueScope\*.

### Low Maintenance

No painting - simply hose clean!

### Tried & Tested

COLORBOND® steel undergoes rigorous testing for corrosion, durability, outdoor exposure and building application to ensure it is suitable for the harsh Australian climate.

### Made Locally

Manufactured locally with no lengthy wait times and the flexibility to supply non-standard lengths.

### Colour Choice

Available in the fabulous range of COLORBOND® steel colours.

### Better Privacy

Say goodbye to that gap in the fence and the annoying fence rattle. When installed correctly, Metroll's range of fencing has smooth surfaces and close fitting panels without gaps, visible footholds or loose palings.

### Accessories Range

Personalise your fence with Metroll's range of fencing accessories. Designed for easy installation even on existing fences. Choose from Lattice Panels, Gates, Under-fence Plinths and Post Caps.

## EASY MAINTENANCE

Keeping your Metroll fence looking it's best could not be easier, simply hose it down periodically with water and use a soft broom to remove any cobwebs. Avoid letting soil or garden fill build up against your fence as this will retain water and cause corrosion. Avoid spraying your fence with garden sprays and fertilisers as this may damage the fence. Should this occur, simply wash the fence down with water.

*Made in Australia*

## CHOOSE FROM OUR FENCING CLASSIC...

### Trimclad

There is always a place for classics and the Trimclad® profile from Metroll is a long standing fencing favourite.

TRIMCLAD FENCING WITH METAL PLINTH

## OR ONE THAT SUITS YOUR NEIGHBOUR TOO...

### Harmony

THE SAME ON BOTH SIDES

Harmony is the ultimate in fencing profiles that gives both neighbours the best side of the fence. Not only does it look great, but it has been engineered to be strong and overlap cleanly.

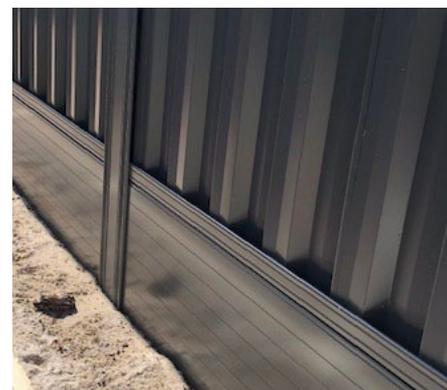

Exclusive to Metroll

HARMONY - PAPERBARK®

### Ali-Box Under-fence insert

Ali-Box is an insert for your fence. Ali-Box is perfect to fill the space under your fence, it keeps your pets in and helps keep soil off your fence. Installation is simple and fast. Ali-Box is available in a range of colours in 2.36m and 3.14m lengths.

### Gates
